

data science.

onezeero. would like to invite you to
attend our data science event on:

Tuesday 27th June 2017

Data is shaping, shifting and scaling the way we
look at the world.

According to Forbes, by 2020 about 1.7 megabytes
of new information will be created every single
second for every human being on the planet,
meaning this potential can only grow.

12:00pm - 12:30pm: Registration, Drinks and Sandwiches
12:30pm - 13:20pm: Event (Guest speaker Stephanie Locke)
13:20pm - 13:30pm: Q&A
13.30pm - 14:00pm: Networking / Event Close

onezeero.
107 Leadenhall St,
London,
EC3A 4AF

data science.

“Data Science is a driver and an answer to the changes being faced by organisations. It is saving people money and helping them make more of their data by building processes that help automate away low-value work, help people take the most effective action and help people adapt more quickly to changing circumstances.”

Data Science Executive Briefing

In this briefing, we'll join the dots between the challenges your organisation is facing and data science to help you determine if data science is a good strategic fit. We'll then go on to provide tactical advice from the field to help you deliver a data science initiative successfully.

Stephanie Locke

Steph is an international leader in data communities and educates thousands each year to help them get started with data science. Microsoft awarded Steph the Most Valued Professional for their Data Platform in 2016, 1 of only 18 in the UK.

She has worked in many industries including insurance, finance, and cyber-security and has worked with various C-Suite members to implement data science in organisations, answering data science challenges like predicting mortgage defaults and identifying rogue web traffic.
